

Bio

Sarah Marshall

Sarah Marshall is the Director of Sustainability at NOVA Chemicals and is responsible for leading cross-functional efforts to achieve the company's long-term vision for Sustainability. She is a strong advocate for a plastics circular economy, working with supply chain partners, customers, government officials, industry associations and others to help create innovative solutions for plastics recycling and recovery.

Marshall joined NOVA Chemicals in 1997 as Technical Service Specialist, and since then has served the company in a variety of leadership roles within the technology organization. She brings more than 20 years of research and development experience within the petrochemicals industry, previously leading teams of scientists, engineers and technologists at NOVA Chemicals' Centre for Applied Research and Centre for Performance Applications.

Marshall earned her Bachelor of Engineering degree at McGill University, Montreal, in 1997. She is a member of the Board of Directors, and former Chair, of the Canadian Plastics Industry Association. She actively participates in community life with her family in Calgary, Alberta.
