NOVA Chemicals is committed to being the leader in innovation that enables our customers to deliver plastic products that make everyday life healthier, easier and safer.

Our strategy leverages our ability to deliver game changing technology and create an exceptional customer experience to help meet the growing consumer demand for polyethylene in the Americas.

KEY STRATEGIC PRIORITIES:

- **Growing responsibly** beyond our traditionally Canadian production footprint, which includes gaining additional access to the U.S. Gulf Coast feedstock and supplying our customer markets in the Americas.
- **Delivering game changing technology** that makes tomorrow even better than today.
- **Being actively sought after** by all of our stakeholders.
