

New stormwater retention pond

Incorporates **best practices** ✓
to **capture run-off** from storm events

**Water used in
our operations**

Existing pond to be remediated

**Turned over to Operations
December 2017**

**Targeted commissioning
completion in 2018**

Two layers of landscape fabric

- Geo-composite
- Linear Low Density Polyethylene (LLDPE)

Approximately **8,000 hand-filled sandbags**
used to hold the landscape fabric in place

Pond area: **625,706 ft²** (58,130 m²)

Approximately **7x** **7 football fields** 

Pond volume: **170,528 m³**

Approximately **68x** **68 Olympic swimming pools**
