

## Implementation Summary Table – 2025

The table below summarizes the provisions of the PCIS which apply to the Site, the date on which each provision applies to the Site, and if compliance of the provision has been achieved, the date on which it was achieved.

PCIS Part	Applicable Provisions	Date the Provision Applies	Date Compliance was Achieved
<b>Part 1 - General</b>	Definitions (Section 1)	N/A	N/A
	Application (Section 2)	N/A	N/A
<b>Part II - Performance</b>	Leak measurement instrumentation (Section 3)	July 28, 2017 <sup>1</sup>	July 28, 2017
	Closed systems (Section 4)	July 28, 2017	July 28, 2017
	Flare (Section 5)	January 1, 2020	January 1, 2020
	Air pollution control devices (Section 6)	July 28, 2017	July 28, 2017
	Requirement to detect leaks (Section 7)	July 28, 2017	July 28, 2017
	Notification-performance requirements (Section 8)	July 28, 2017	January 31, 2023
<b>Part III - Storage Vessels</b>	Storage vessels identification (Section 9)	July 28, 2017	July 28, 2017
	Storage vessels- application (Section 10)	January 1, 2018	January 1, 2018
	Floating roof- requirement to float (Section 11)	January 1, 2018	January 1, 2018
	Internal floating roof -rim seal requirements (Section 12)	N/A in 2025	N/A in 2025
	External floating roof- rim seal requirements (Section 13)	January 1, 2025	January 1, 2025
	Floating roof deck fittings (Section 14)	January 1, 2025	January 1, 2025
	Deck covers-requirement to be closed (Section 15)	January 1, 2025	January 1, 2025
	Floating roof-visual inspection (Section 16)	January 1, 2018	July 18, 2019 <sup>2</sup>
	Storage vessels-OGI inspection (Section 17)	January 1, 2018	January 1, 2018

<b>PCIS Part</b>	<b>Applicable Provisions</b>	<b>Date the Provision Applies</b>	<b>Date Compliance was Achieved</b>
	Floating roof-seal gap inspection (Section 18)	January 1, 2018	N/A in 2025
	Storage vessel repair (Section 19)	January 1, 2018	January 1, 2018
	Requirement to notify-recurring repair (Section 20)	January 1, 2018	January 1, 2018
	Storage vessels in benzene service-general record (Section 21)	July 28, 2017	July 28, 2017
	Storage vessel inspection record (Section 22)	January 1, 2018	January 1, 2018
	Rim seal gap report-storage vessels (Section 23)	N/A in 2025	N/A in 2025
<b>Part IV - Air Emissions from Industrial Sewage</b>	Primary oil-water separators-requirement selection (Section 24)	March 1, 2018	October 26, 2017
	Primary oil-water separators-monitor and control requirements (Section 25)	July 1, 2018	July 1, 2018
	Primary oil-water separators floating roof-requirement to float (Section 26)	N/A in 2025	N/A in 2025 <sup>6</sup>
	Primary oil-water separators floating roof-rim seal gap inspection (Section 27)	N/A in 2025	N/A in 2025 <sup>6</sup>
	Primary oil-water separator- OGI inspection (Section 28)	December 15, 2022	December 15, 2022
	Primary oil-water separator repair (Section 29)	December 15, 2022	December 15, 2022
	Primary oil-water separator record-general (Section 30)	March 1, 2018	March 1, 2018
	Primary oil-water separator inspection record (Section 31)	March 29, 2023	March 29, 2023
	Rim seal gap report- primary oil-water separator (Section 31)	N/A in 2025	N/A in 2025 <sup>6</sup>
	Rim seal gap report- primary oil-water separator (Section 32)	N/A in 2025	N/A in 2025 <sup>6</sup>
	Drains and maintenance access points-measurement and control requirements (Section 33)	July 1, 2019	July 1, 2019

PCIS Part	Applicable Provisions	Date the Provision Applies	Date Compliance was Achieved
	Drains and maintenance access points-measurement and control record (Section 34)	July 1, 2019	July 1, 2019
<b>Part V - Product Loading</b>	Benzene-containing product loading operations- application (Section 35 and 36)	July 28, 2017	July 28, 2017
	Vapour-tight cargo tanks (Section 37)	July 1, 2018	July 28, 2017
<b>Part VI - Leak Detection and Repair</b>	Component identification (Section 38)	July 28, 2017	July 28, 2017
	Component leak survey-general (Section 39)	January 1, 2018	January 1, 2018
	Component leak survey-assessment and measurement of leaks (Section 40)	January 1, 2018	January 1, 2018
	Component leak survey plan (Section 41)	April 30, 2018	April 30, 2018
	Additional leak measurements-pumps, compressors and pressure relief devices (Section 42)	January 1, 2023	January 1, 2023
	Leaks- deviations and repair (Section 43)	January 1, 2018	January 1, 2018
	Delay of repair list (Section 44)	January 1, 2020	January 1, 2020
	Re-measurement following component repair or replacement (Section 45)	January 1, 2018	November 29, 2019 <sup>3</sup>
	Component replacement (Section 46)	January 1, 2018	July 23, 2019 <sup>4</sup>
	Leaking components-annual calculation (Section 47)	June 30, 2018	June 30, 2018
	Records-component leak survey (Section 48)	January 1, 2018	January 1, 2018 <sup>5</sup>
Records- additional leak measurements (Section 49)	January 1, 2023	N/A in 2025	
	Technology requirements- open-ended valves (Section 50)	July 28, 2017	July 28, 2017
	Technology requirements- surge control vessels and bottoms receivers (Section 51)	January 1, 2020	N/A in 2025

<b>PCIS Part</b>	<b>Applicable Provisions</b>	<b>Date the Provision Applies</b>	<b>Date Compliance was Achieved</b>
<b>Part VII - Operation</b>	Operating parameter summary table (Section 52)	January 1, 2018	January 1, 2018
	Measurement of operating parameters (Section 53)	January 1, 2018	January 1, 2018
	Phase in for new pollution control devices (Section 54)	December 16, 2022	June 16, 2023 <sup>7</sup>
<b>Part VIII - Requirement to Continue the Use of Methods To Manage Emissions</b>	Identifying managed sources (Section 55)	July 28, 2017	July 28, 2017
	Requirement to continue the management of sources (Section 56)	July 28, 2017	July 28, 2017
	Changes to managed sources (Section 57)	July 28, 2017	July 28, 2017
	Specified source management (Section 58)	N/A in 2025	N/A in 2025
	Notification of changes to management of sources (Section 59)	December 16, 2022	January 12, 2023 <sup>8</sup>
<b>Part IX - Ambient Monitoring</b>	Ambient monitoring (Section 60)	January 1, 2018	December 27, 2017
	Measurements baseline (Section 61)	March 31, 2021	March 31, 2021
	Statistical analysis of ambient measurements (Section 62)	March 31, 2022	March 31, 2022
	Notification-ambient monitoring (Section 63)	March 31, 2022	March 31, 2022
<b>Part X - Complaints, Records and Reporting</b>	Complaints procedure (Section 64)	July 28, 2017	July 28, 2017
	Annual summary reports (Section 65)	January 1, 2019	March 31, 2019
	Public reporting- ambient monitoring (Section 66)	January 1, 2018	December 28, 2017
	Records (Section 67)	July 28, 2017	July 28, 2017

**Notes:**

- <sup>1</sup> NOVA Chemicals Corporation - Corunna Site was registered under the PCIS on July 28, 2017
- <sup>2</sup> The inspection was performed during the first tank outage in accordance with subsection 16(3).
- <sup>3</sup> The re-measurement was the first required under Section 45
- <sup>4</sup> The component replacement was the first required under Section 46
- <sup>5</sup> The record required by subsection 48(2) was completed on June 30, 2018.
- <sup>6</sup> The site was in compliance to Paragraph 3ii of Section 25(1) as of December 16, 2022 (air pollution control device installed; no floating roof).
- <sup>7</sup> There is a phase-in period of six months following installation of the air pollution control device.
- <sup>8</sup> The notification is required no later than 30 days following a change that is subject to subsection 59(1)

## Implementation Summary Table – 2024

The table below summarizes the provisions of the PCIS which apply to the Site, the date on which each provision applies to the Site, and if compliance of the provision has been achieved, the date on which it was achieved.

**Notes:**

- <sup>1</sup> NOVA Chemicals Corporation - Corunna Site was registered under the PCIS on July 28, 2017
- <sup>2</sup> The inspection was performed during the first tank outage in accordance with subsection 16(3).
- <sup>3</sup> The re-measurement was the first required under Section 45
- <sup>4</sup> The component replacement was the first required under Section 46
- <sup>5</sup> The record required by subsection 48(2) was completed on June 30, 2018.
- <sup>6</sup> The site was in compliance to Paragraph 3ii of Section 25(1) as of December 16, 2022 (air pollution control device installed; no floating roof).
- <sup>7</sup> There is a phase-in period of six months following installation of the air pollution control device.
- <sup>8</sup> The notification is required no later than 30 days following a change that is subject to subsection 59(1)

## Implementation Summary Table – 2022

The table below summarizes the provisions of the PCIS which apply to the Site, the date on which each provision applies to the Site, and if compliance of the provision has been achieved, the date on which it was achieved.

PCIS Part	Applicable Provisions	Date the Provision Applies	Date Compliance was Achieved
<b>Part I - General</b>	Definitions (Section 1)	N/A	N/A
	Application (Section 2)	N/A	N/A
<b>Part II - Performance</b>	Leak measurement instrumentation (Section 3)	July 28, 2017 <sup>1</sup>	July 28, 2017
	Closed systems (Section 4)	July 28, 2017	July 28, 2017
	Flare (Section 5)	January 1, 2020	January 1, 2020
	Air pollution control devices (Section 6)	July 28, 2017	July 28, 2017
	Requirement to detect leaks (Section 7)	July 28, 2017	July 28, 2017
	Notification-performance requirements (Section 8)	July 28, 2017	N/A in 2022
<b>Part III - Storage Vessels</b>	Storage vessels identification (Section 9)	July 28, 2017	July 28, 2017
	Storage vessels- application (Section 10)	January 1, 2018	January 1, 2018

**Notes to Table 1:**

- <sup>1</sup> NOVA Chemicals' Corunna Site was registered under the PCIS on July 28, 2017.
- <sup>2</sup> The inspection was performed during the first tank outage in accordance with subsection 16(3).
- <sup>3</sup> The re-measurement was the first required under Section 45
- <sup>4</sup> The component replacement was the first required under Section 46
- <sup>5</sup> The record required by subsection 48(2) was completed on June 30, 2018.

## Implementation Summary Table - 2019

This table summarizes the provisions of the PCIS which apply to the Site, the date on which each provision applies to the Site, and if compliance of the provision has been achieved, the date on which it was achieved.
