

Quality Rotomolding Resins

Performance Polyethylene Resins

Our portfolio of polyethylene rotational molding resins create value and offer a competitive advantage. By improving process and material efficiencies, our resins enable the development of solutions that are more innovative, cost-effective and better performing. Our suite of offerings include our well-proven NOVAPOL TR resins, our next-generation TRx NOVAPOL resins, and our differentiated SURPASS resins that deliver product consistency and reliability—enabling our customers to succeed in existing and new markets.
