

# Greg DeKunder

Greg DeKunder serves as the Vice President of NOVA Circular Solutions. In this role, he is focused on expanding the company's recycled polyethylene product offerings and growing its mechanical recycling business to become one of the leading recyclers in North America. Previously, he served as the Vice President of Marketing for NOVA Chemicals' polyethylene business. Before joining NOVA Chemicals in 2018, Greg spent more than 25 years at Total S.A., most recently heading Base Chemicals, Americas within the company's refining and chemicals business.

Greg holds a Bachelor of Science in Mechanical Engineering from the University of Texas, and an MBA from the University of Houston. In 2013, he was named to the University of Texas Department of Mechanical Engineering's Academy of Distinguished Alumni. DeKunder has a passion for accelerating the plastics circular economy and serves on the PLASTICS Board of Directors and the NOVA Chemicals' Limited Partner Advisory Committee for the Closed Loop Circular Plastics Fund. He is NOVA Chemicals' delegate to the Alliance to End Plastic Waste. He lives in Pittsburgh with his wife and three daughters and enjoys hiking, skiing, and other outdoor activities.
