

Date of previous report version: 06/13/2024

Generation date: 08/28/2024

# SAFETY DATA SHEET

Classified in accordance with 29 CFR 1910.1200

#### 1. Identification

**Product identifier:** Gasoline Blendstock C6-C8

Other means of identification

Common name(s), Blended Reformate/Raffinate

synonym(s):

SDS number: NOVA-0021

Recommended use and restriction on use

Recommended use: Gasoline blending or fuel products blending.

Restrictions on use: All uses other than the identified.

# Manufacturer/Importer/Supplier/Distributor Information

Manufacturer

Company Name: NOVA Chemicals

Address: P.O. Box 2518, Station M

Calgary, Alberta, Canada T2P 5C6

Telephone: Product Information: 1-412-490-4063

SDS Information Email: <a href="mailto:msdsemail@novachem.com">msdsemail@novachem.com</a>

# **Emergency telephone number:**

1-800-561-6682, 1-403-314-8767 (NOVA Chemicals) (24 hours)

1-800-424-9300 (CHEMTREC) (24 hours)

# 2. Hazard(s) identification

#### **Hazard Classification**

| Physical   | Hazards    |
|------------|------------|
| i iiyaicai | i iazai us |

Flammable liquids Category 2

# **Health Hazards**

Acute toxicity (Oral)

Skin Corrosion/Irritation

Category 2

Serious Eye Damage/Eye Irritation

Germ Cell Mutagenicity

Category 1B

Carcinogenicity

Category 1A

Reproductive toxicity

Specific Target Organ Toxicity 
Category 3

Single Exposure

Specific Target Organ Toxicity - Category 1

Repeated Exposure

Specific Target Organ Toxicity - Category 2

Repeated Exposure

Aspiration Hazard Category 1

**Environmental Hazards** 

Acute hazards to the aquatic Category 1

environment

Chronic hazards to the aquatic Category 1

environment

SDS\_US 1/18

Date of previous report version: 06/13/2024

Generation date: 08/28/2024

#### **Label Elements**

#### **Hazard Symbol:**

Signal Word: Danger

**Hazard Statement:** Highly flammable liquid and vapor.

Harmful if swallowed. Causes skin irritation.

Causes serious eye irritation. May cause genetic defects.

May cause cancer.

Suspected of damaging fertility or the unborn child.

May cause respiratory irritation.

May cause drowsiness or dizziness.

Causes damage to organs through prolonged or repeated

exposure. (Blood)

May cause damage to organs through prolonged or repeated

exposure.

(Nervous System) (Hearing organs) (Central nervous system)

May be fatal if swallowed and enters airways.

Very toxic to aquatic life with long lasting effects.

**Precautionary Statements:** 

**Prevention:** Obtain special instructions before use. Do not handle until all safety

precautions have been read and understood. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. Ground and bond container and receiving equipment. Use explosion-proof electrical, ventilating and lighting equipment. Use non-sparking tools. Take action to

prevent static discharges. Do not breathe

dust/fume/gas/mist/vapors/spray. Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Wear protective gloves/ protective clothing/ eye protection/ face protection/

hearing protection. Avoid release to the environment.

**Response:** IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

Immediately call a POISON CENTER/doctor. IF ON SKIN (or hair): Take off immediately all contaminated clothing and wash it before reuse. Rinse skin with water [or shower]. If skin irritation occurs: Get medical advice/attention. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/doctor if you feel unwell. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF exposed or concerned: Get medical advice/attention. In case of fire: Use dry chemical, foam, carbon dioxide (CO2), water spray or fog to

extinguish. Collect spillage.

Storage: Store in a well-ventilated place. Keep container tightly closed.

Date of previous report version: 06/13/2024

Generation date: 08/28/2024

Keep cool. Store locked up.

**Disposal:** Dispose of contents/ container to an approved facility in accordance

with local, regional, national and international regulations.

Other hazards which do not result in GHS classification:

Static accumulating flammable liquid can become electrostatically charged even in bonded and grounded equipment. Sparks may ignite liquid and

vapor. May cause flash fire or explosion.

# 3. Composition/information on ingredients

#### **Mixtures**

| Chemical Identity                                  | Common name and synonyms           | CAS number | Content in percent (%)* |
|----------------------------------------------------|------------------------------------|------------|-------------------------|
| Cyclopentane, methyl-                              | Methylcyclopentane                 | 96-37-7    | 10 - 25%                |
| Cyclohexane                                        | Benzene hexahydride                | 110-82-7   | 10 - 25%                |
| Hexane                                             | n-Hexane                           | 110-54-3   | 2 - 25%                 |
| Cyclopentane                                       | Pentamethylene                     | 287-92-3   | 4 - 15%                 |
| 4,7-Methano-1H-indene,<br>3a,4,5,6,7,7a-hexahydro- | Dihydrodicyclopentadiene           | 4488-57-7  | 0 - 12%                 |
| Octane                                             | n-Octane                           | 111-65-9   | 1 - 10%                 |
| Pentane, 2-methyl-                                 | Isohexane                          | 107-83-5   | 0 - 10%                 |
| Cyclohexane, methyl-                               | Methylcyclohexane                  | 108-87-2   | 0 - 10%                 |
| n-Pentane                                          | Pentane                            | 109-66-0   | 0 - 5%                  |
| Heptane, 3-methyl-                                 | 3-Methylheptane                    | 589-81-1   | 0 - 5%                  |
| Pentane, 3-methyl-                                 | 3-Methylpentane                    | 96-14-0    | 0 - 5%                  |
| 1-ethyl-1-methylcyclohexane                        | Cyclohexane, ethylmethyl-          | 4926-90-3  | 0 - 5%                  |
| Cyclohexane, ethyl-                                | Ethylcyclohexane                   | 1678-91-7  | 0 - 5%                  |
| Hexane, 3-methyl-                                  | 3-Methylhexane                     | 589-34-4   | 0 - 5%                  |
| Benzene, ethyl-                                    | Ethylbenzene, Phenylethane         | 100-41-4   | 0.1 - 4%                |
| Benzene, dimethyl-                                 | Xylene (mixed isomers)             | 1330-20-7  | 0.1 - 3%                |
| Cyclohexane, (1-methylethyl)-                      | Isopropylcyclohexane               | 696-29-7   | 0 - 3%                  |
| Pentane, 2,3-dimethyl-                             | 2,3-Dimethylpentane                | 565-59-3   | 0 - 3%                  |
| Toluene                                            | Methylbenzene                      | 108-88-3   | 0.1 - 2%                |
| Hexane, 2-methyl-                                  | 2-Methylhexane                     | 591-76-4   | 0 - 2%                  |
| n-Undecane                                         | Undecane                           | 1120-21-4  | 0 - 2%                  |
| Benzene                                            | Benzol                             | 71-43-2    | 0 - 1.5%                |
| Heptane                                            | n-Heptane                          | 142-82-5   | 0 - 1%                  |
| Nonane                                             | n-Nonane                           | 111-84-2   | 0 - 1%                  |
| Butane, 2-methyl-                                  | Isopentane                         | 78-78-4    | 0 - 1%                  |
| Pentane, 2,4-dimethyl-                             | 2,4-Dimethylpentane                | 108-08-7   | 0 - 1%                  |
| 2,2-Dimethylpentane                                | Pentane, 2,2-dimethyl-             | 590-35-2   | 0 - 1%                  |
| 3,3-Dimethylhexane                                 | Hexane, 3,3-dimethyl-              | 563-16-6   | 0 - 1%                  |
| trans-1,2-Dimethylcyclohexane                      | Cyclohexane, 1,2-dimethyl-, trans- | 6876-23-9  | 0 - 1%                  |
| 2,2,3,4-Tetramethylpentane                         | Pentane, 2,2,3,4-tetramethyl-      | 1186-53-4  | 0 - 1%                  |
| Pentane, 3-ethyl-                                  | 3-Ethylpentane                     | 617-78-7   | 0 - 0.5%                |
| 2-Methylheptane                                    | Heptane, 2-methyl-                 | 592-27-8   | 0 - 0.5%                |
| Hexane, 3,4-dimethyl-                              | 3,4-Dimethylhexane                 | 583-48-2   | 0 - 0.2%                |
| Hexane, 3-ethyl-                                   | 3-Ethylhexane                      | 619-99-8   | 0 - 0.15%               |

<sup>\*</sup> All concentrations are percent by weight.

**Additional Information:** This product has been assigned a CAS # of 68333-81-3 - Alkanes, C4-12. This product is considered hazardous by the OSHA Hazard Communication

SDS\_US 3/18

Date of previous report version: 06/13/2024

Generation date: 08/28/2024

# Standard, (29 CFR 1910.1200).

#### 4. First-aid measures

**Inhalation:** IF INHALED: Remove person to fresh air and keep comfortable for

breathing. Call a POISON CENTER/doctor if you feel unwell.

Ingestion: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Immediately call

a POISON CENTER/doctor.

**Skin Contact:** IF ON SKIN (or hair): Take off immediately all contaminated clothing and

wash it before reuse. Rinse skin with water [or shower]. If skin irritation

occurs: Get medical advice/attention.

**Eye contact:** IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing. If eye irritation

persists: Get medical advice/attention.

# Most important symptoms/effects, acute and delayed

**Symptoms:** Skin irritation. Eye irritation. Respiratory irritation. Drowsiness.

Dizziness. Blood disorders.

#### Indication of immediate medical attention and special treatment needed

**Treatment:** Ensure thorough eye and skin decontamination. Treat

unconsciousness, nausea, hypotension, seizures and cardiac dysrhythmias in the conventional manner. This product may cause cardiac sensitization and dysrhythmia. Do not use mouth-to-mouth resusitation if this liquid has been ingested or inhaled – use a proper respiratory medical device. Aspiration of this product during induced emesis can result in lung injury. If evacuation of stomach contents is considered necessary, use the method least likely to cause aspiration,

such as gastric lavage after protecting the airway. Observe

hospitalized patients for delayed chemical pneumonia, acute kidney

failure, altered level of consciousness, and cardiac rhythm

disturbances.

## 5. Fire-fighting measures

General Fire Hazards: Highly flammable liquid and vapor. Presence of strong oxidizers can

increase fire and explosion hazard. Vapors are heavier than air and may travel to a source of ignition and flash back. Closed containers may rupture violently when heated. If tank, rail car or tank truck is involved in fire, ISOLATE for 800 meters (1/2 mile) in all directions; also, consider initial evacuation for 800 meters (1/2 mile) in all directions. Vapors may form explosive mixture with air. Keep containers away from source of heat or fire. This product may be a static accumulator which can form an ignitable

vapor-air mixture in a storage tank.

#### Suitable (and unsuitable) extinguishing media

Suitable extinguishing

media:

Use dry chemical, foam, carbon dioxide (CO2), water spray or fog to extinguish. Use water to cool fire-exposed containers and to protect

personnel.

Unsuitable extinguishing

media:

Do not use straight/direct streams as this may actually spread flames.

Specific hazards arising from the chemical:

Upon combustion, this product emits carbon monoxide, carbon dioxide, low molecular weight hydrocarbons.

SDS\_US 4/18

Date of previous report version: 06/13/2024

Generation date: 08/28/2024

#### Special protective equipment and precautions for fire-fighters

Special fire-fighting procedures:

Keep upwind. Keep unauthorized personnel away. Move containers from fire area if you can do so without risk. Fight fire from maximum distance or use unmanned holders or monitor nozzles. Immediately withdraw in case of fire and container venting or heat discoloration of a container. Avoid inhaling any smoke and combustion materials. Remove and isolate contaminated clothing and shoes. Cool containers with flooding quantities of water until well after the fire is out. Prevent runoff from fire control or dilution from entering streams, sewers, or drinking water supply. Reference Emergency Response Guidebook No. 128 for additional details and instructions.

Special protective equipment for fire-fighters:

Wear positive pressure self-contained breathing apparatus (SCBA). Structural fire-fighters' protective clothing provides thermal protection **but only limited chemical protection**.

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures: Wear appropriate personal protective equipment. Isolate area. Keep unauthorized personnel away. Alert stand-by emergency and fire-fighting personnel. Monitor surrounding area for buildup of flammable concentrations in air.

Methods and material for containment and cleaning up:

Do not touch or walk through spilled material. In case of leakage, eliminate all ignition sources. As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (164 feet) in all directions. All equipment used when handling the product must be grounded. Keep upwind. Keep out of low areas. Stop leak if safe to do so. Contain discharge by booming on water or diking on ground. Prevent runoff from fire control or dilution from entering streams, sewers, or drinking water supply.

Small Spills: Remove liquid material with non-sparking approved pumps, skimmers or vacuum equipment. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Use non-sparking tools.

Large Spills: Consider downwind evacuation for 300 meters (1000 feet). Spills on water will volatilize rapidly, making containment or recovery difficult. A vapor-suppressing foam may be used to reduce vapors. Remove pooled liquid material with approved, non-sparking pumps, skimmers or vacuum equipment. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Soil remediation may be required.

#### 7. Handling and storage

#### Precautions for safe handling:

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. Ground and bond container and receiving equipment. Use explosion-proof electrical, ventilating and lighting equipment. Use non-sparking tools. Take action to prevent static discharges. These alone may be insufficient to remove static electricity. For additional information on equipment bonding and grounding, refer to the American Petroleum Institute (API) Recommended Practice 2003, "Protection Against Ignitions Arising out of Static, Lightning, and Stray Currents" or National Fire Protection Association (NFPA) 77, "Recommended Practice on Static Electricity". For additional information on storing and handling flammable liquids, refer to the National Fire Protection

SDS\_US 5/18

Date of previous report version: 06/13/2024

Generation date: 08/28/2024

Association (NFPA) 30, "Flammable and Combustible Liquids Code". Take special precautions when cold cutting or breaking into lines, or when cleaning and disposing of empty containers. Parts and equipment should be steam cleaned prior to maintenance procedures. Do not breathe dust/fume/gas/mist/vapors/spray. Avoid contact with skin and eyes. Keep away from incompatible materials such as oxidizing agents and acids. Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Wear protective gloves/ protective clothing/ eye protection/face protection/ hearing protection. In case of inadequate ventilation, use respiratory protection. Avoid release to the environment.

Conditions for safe storage, including any incompatibilities:

Storage area should be clearly identified, well-illuminated and clear of obstruction. Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Only allow access to authorized persons. Store and handle in properly designed pressure vessels and equipment. Store and use away from heat, sparks, open flame, or any other ignition source. Use non-sparking ventilation systems, approved explosion-proof equipment, and intrinsically safe electrical systems. Have appropriate extinguishing capability in storage area (e.g. sprinkler system, portable fire extinguishers) and flammable gas detectors. Keep absorbents for leaks and spills readily available. Inspect vents during winter conditions for vapor ice buildup. Storage tanks should be above ground and diked to hold entire contents. Store away from incompatible materials. Store according to applicable regulations and standards for flammable materials.

# 8. Exposure controls/personal protection

#### **Control Parameters**

**Occupational Exposure Limits** 

| Chemical Identity | Туре      | Exposure Lir | nit Values  | Source                                                                              |

# Appropriate Engineering Controls

Engineering methods to reduce hazardous exposure are preferred controls. Methods include mechanical ventilation (dilution and local exhaust) process or personal enclosure, remote and automated operation, control of process conditions, leak detection and repair systems, and other process modifications. Ensure all exhaust ventilation systems are discharged to outdoors, away from air intakes and ignition sources. Supply sufficient replacement air to make up for air removed by exhaust systems. Use non-sparking ventilation systems, approved explosion-proof equipment, and intrinsically safe electrical systems. Administrative (procedure) controls and use of personal protective equipment may also be required.

#### Individual protection measures, such as personal protective equipment

**General information:** Personal protective equipment (PPE) should not be considered a long-term

solution to exposure control. Employer programs to properly select, fit, maintain and train employees to use equipment must accompany PPE. Consult a competent industrial hygiene resource, the PPE manufacturer's recommendation, and/or applicable regulations to determine hazard

potential and ensure adequate protection.

**Eye/face protection:** Safety glasses. Chemical goggles are recommended if splashing is

possible or to prevent eye irritation from vapors.

Skin Protection Hand Protection:

Chemical resistant gloves.

Skin and Body Protection: Wear appropriate clothing to prevent any possibility of skin contact. Wear work clothes with long sleeves and pants. If splashing or contact with liquid material is possible, consider the need for an impervious overcoat. Fire resistant (i.e., Nomex) or natural fiber clothing (i.e., cotton or wool) is recommended. Synthetic clothing can generate static electricity and is not recommended where a flammable vapor release may occur. Wear chemical-resistant safety footwear with good traction to prevent slipping.

Static Dissipative (SD) rated footwear is also recommended.

**Respiratory Protection:** Appropriate NIOSH approved air-purifying respirator or self-contained

breathing apparatus should be used. Supplied air breathing apparatus must be used when oxygen concentrations are low or if airborne concentrations

exceed the limits of the air-purifying respirators or IDLH levels.

**Hygiene measures:** Use effective control measures and PPE to maintain worker exposure to

concentrations that are below these limits. Ensure that eyewash stations

and safety showers are in close proximity to work locations.

# 9. Physical and chemical properties

**Appearance** 

Physical state: liquid
Form: liquid
Color: Colorless

Odor: sweet aromatic
Odor Threshold: No data available.
pH: not applicable

Melting point/freezing point: -160 °C (-256 °F) (estimated)
Initial boiling point and boiling range: 40 - 190 °C (104 - 374 °F)

Flash Point: < -18 °C (< -0.40 °F) (Closed Cup)

Evaporation rate: 5.6

Flammability (solid, gas): not applicable

Upper/lower limit on flammability or explosive limits

Flammability Limit - Upper (%): No data available.
Flammability Limit - Lower (%): No data available.

Vapor pressure: 27 - 43 kPa (37.8 °C (100.0 °F)) (Reid Vapor Pressure)

Vapor density: 3 (Air=1) (ambient conditions)

**Density:** 720 - 780 kg/m3 **Relative density:** 0.72 - 0.78 (Water=1)

Solubility(ies)

Solubility in water: Insoluble in water

**Solubility (other):** Highly soluble in ether, alcohols and other aliphatic

solvents.

Partition coefficient (n-octanol/water): 2.2 - 4.5 (similar mixtures)

**Auto-ignition temperature:** 254 °C (489 °F) **Decomposition temperature:** No data available.

Viscosity: 2 mm2/s (40 °C (104 °F)), estimated

# 10. Stability and reactivity

**Reactivity:** Contact with incompatible materials. Sources of ignition. Exposure to heat.

Chemical Stability: Stable under normal storage conditions. Some components of the product

become unstable at elevated temperatures and pressures.

Possibility of hazardous

reactions:

No data available.

**Conditions to avoid:** Contact with incompatible materials. Sources of ignition. Exposure to heat.

Incompatible Materials: Oxidizers. Presence of strong oxidizers can increase fire and explosion

hazard.

**Hazardous Decomposition** 

**Products:** 

Upon decomposition, this product emits carbon monoxide, carbon dioxide,

low molecular weight hydrocarbons.

# 11. Toxicological information

# Information on likely routes of exposure

**Inhalation:** Inhalation of this product causes headache, dizziness and nausea and loss

SDS\_US 12/18

Date of previous report version: 06/13/2024

Generation date: 08/28/2024

of coordination. Repeated inhalation may result in bronchitis or other breathing problems, possible damage to the peripheral nervous systems and possible cardiac sensitization. Minute amounts aspirated into the lungs

during ingestion or vomiting may cause pulmonary injury.

**Ingestion:** Harmful if swallowed. Minute amounts aspirated into the lungs during

ingestion or vomiting may cause severe pulmonary injury. Ingestion of this product may result in vomiting, nausea, abdominal pain and central nervous system effects including headache, sleepiness, dizziness and nausea.

Ingestion may also cause blood disorders.

**Skin Contact:** Causes skin irritation.

**Eye contact:** Causes serious eye irritation.

#### Symptoms related to the physical, chemical and toxicological characteristics

**Inhalation:** Central nervous system (hearing effect). Respiratory irritation.

**Ingestion:** Vomiting, nausea, abdominal pain and central nervous system effects

including headache.

**Skin Contact:** Skin irritation.

**Eye contact:** Eye irritation.

# Information on toxicological effects

# Acute toxicity (list all possible routes of exposure)

Oral

**Product:** ATEmix: 1,090.63 mg/kg

**Dermal** 

**Product:** Not classified for acute toxicity based on available data.

Inhalation

**Product:** Not classified for acute toxicity based on available data.

Repeated dose toxicity

**Product:** No data available.

**Components:** 

Benzene LOAEL (Rat, Oral): 25 mg/kg (Target Organ(s): Blood)

LOAEL (Rat, Inhalation - vapor): 0.958 mg/l (Target Organ(s): Blood) LOAEL (Human, Inhalation - vapor): 0.0018 mg/l (Target Organ(s): Blood)

Skin Corrosion/Irritation

**Product:** Causes skin irritation.

Serious Eye Damage/Eye Irritation

**Product:** Causes serious eye irritation.

Respiratory or Skin Sensitization

**Product:** No data available.

Carcinogenicity

**Product:** May cause cancer.

#### IARC Monographs on the Evaluation of Carcinogenic Risks to Humans:

Benzene, ethyl- Overall evaluation: 2B. Possibly carcinogenic to humans.

Benzene Overall evaluation: 1. Carcinogenic to humans.

SDS\_US 13/18

Benzene Known To Be Human Carcinogen.

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053), as amended:

Benzene Cancer

**Germ Cell Mutagenicity** 

In vitro

**Product:** May cause genetic defects.

In vivo

**Product:** May cause genetic defects.

Reproductive toxicity

**Product:** Suspected of damaging fertility or the unborn child.

**Specific Target Organ Toxicity - Single Exposure** 

**Product:** May cause respiratory irritation. May cause drowsiness or dizziness.

**Specific Target Organ Toxicity - Repeated Exposure** 

**Product:** Blood - Causes damage to organs through prolonged or repeated exposure.

Nervous System, hearing organs, Central nervous system - May cause

damage to organs through prolonged or repeated exposure.

**Aspiration Hazard** 

**Product:** May be fatal if swallowed and enters airways.

Other effects: No data available.

# 12. Ecological information

#### **Ecotoxicity:**

#### Acute hazards to the aquatic environment:

Fish

**Product:** Very toxic to aquatic life.

**Aquatic Invertebrates** 

**Product:** Very toxic to aquatic life.

**Toxicity to Aquatic Plants** 

**Product:** Very toxic to aquatic life.

#### Chronic hazards to the aquatic environment:

Fish

**Product:** Very toxic to aquatic life with long lasting effects.

**Aquatic Invertebrates** 

**Product:** Very toxic to aquatic life with long lasting effects.

**Toxicity to Aquatic Plants** 

**Product:** Very toxic to aquatic life with long lasting effects.

# Persistence and Degradability

**Biodegradation** 

**Product:** No data available.

SDS\_US 14/18

Date of previous report version: 06/13/2024

Generation date: 08/28/2024

**BOD/COD Ratio** 

**Product:** No data available.

Bioaccumulative potential

**Bioconcentration Factor (BCF)** 

**Product:** No data available.

Partition Coefficient n-octanol / water (log Kow)

**Product:** 2.2 - 4.5 (similar mixtures)

**Mobility in soil:** When released into the environment, this product is expected to partition

primarily to air (> 95%), with some partitioning to water (< 3%), to soils (< 2%) and into sediment (< 1%). Spill remediation has shown potential for

downward movement and partitioning into groundwater.

Other adverse effects: No data available.

#### 13. Disposal considerations

**Disposal instructions:** Dispose of contents/container to an appropriate treatment and disposal

facility in accordance with applicable laws and regulations, and product characteristics at time of disposal. Waste generator is advised to carefully consider hazardous properties and control measures needed for other

materials that may be found in the waste.

**Contaminated Packaging:** Check local, federal and state environmental regulations prior to disposal.

#### 14. Transport information

DOT

UN number or ID number: UN 1268

UN Proper Shipping Name: Petroleum distillates, n.o.s.

Transport Hazard Class(es)

Class: 3
Label(s): 3
Packing Group: II
Marine Pollutant: Yes

Special precautions for user: Reference Emergency Response Guidebook No. 128, latest revision.

Reportable quantity Benzene 10 lbs

Xylene (mixed isomers) 100 lbs

**IMDG** 

UN number or ID number: UN 1268

UN Proper Shipping Name: PETROLEUM DISTILLATES, N.O.S.

Transport Hazard Class(es)

Class: 3
Label(s): 3
EmS No.: F-E, S-E
Packing Group: II
Marine Pollutant: Yes
Limited quantity 1.00L
Excepted quantity E2

Special precautions for user: Transport in bulk according to IMO instruments

# 15. Regulatory information

#### **US Federal Regulations**

#### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

SDS\_US 15/18

Date of previous report version: 06/13/2024

Generation date: 08/28/2024

Chemical Identity Reportable quantity

Nonane De minimis concentration: 1.0% One-Time Export Notification only. 2,2,3,4- De minimis concentration: 1.0% One-Time Export Notification only.

Tetramethylpentane

# US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053), as amended

<u>Chemical Identity</u> <u>OSHA hazard(s)</u>

Benzene Blood

Central nervous system

Cancer Aspiration

respiratory tract irritation

Flammability

Skin Eye

# CERCLA Hazardous Substance List (40 CFR 302.4):

| <b>Chemical Identity</b> | Name on List:                 | Reportable quantity |
|--------------------------|-------------------------------|---------------------|
| Cyclohexane              | Cyclohexane                   | 1000 lbs.           |
| Hexane                   | HEXANE                        | 5000 lbs.           |
| Cyclopentane             | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Octane                   | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Cyclohexane, methyl-     | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| n-Pentane                | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Heptane, 3-methyl-       | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Ethylcyclopentane        | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Pentane, 3-methyl-       | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Cyclohexane, ethyl-      | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Hexane, 3-methyl-        | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Benzene, ethyl-          | ETHYLBENZENE                  | 1000 lbs.           |
| Benzene, dimethyl-       | Xylenes (isomers and mixture) | 100 lbs.            |
| Pentane, 2,3-dimethyl-   | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Toluene                  | BENZENE, METHYL-              | 1000 lbs.           |
| Hexane, 2-methyl-        | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Benzene                  | BENZENE                       | 10 lbs.             |
| Nonane                   | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Butane, 2-methyl-        | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Pentane, 2,4-dimethyl-   | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| 2,2,3,4-                 | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Tetramethylpentane       |                               |                     |
| 2,2-Dimethylpentane      | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| 3,3-Dimethylhexane       | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Pentane, 3-ethyl-        | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| 2-Methylheptane          | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| 2,4-Dimethylheptane      | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Hexane, 3,4-dimethyl-    | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| 2,2-Dimethylheptane      | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| 2,3-Dimethylheptane      | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| Hexane, 3-ethyl-         | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| 2,3,5-Trimethylhexane    | RCRA Hazardous Waste No. D001 | 100 lbs.            |
| 4-Methyloctane           | RCRA Hazardous Waste No. D001 | 100 lbs.            |

# Superfund Amendments and Reauthorization Act of 1986 (SARA)

# **Hazard categories**

Flammable (gases, aerosols, liquids, or solids), Acute toxicity (any route of exposure), Skin Corrosion or Irritation, Serious eye damage or eye irritation, Germ Cell Mutagenicity, Carcinogenicity, Reproductive Toxicity, Specific target organ toxicity (single or repeated exposure), Aspiration Hazard, Hazards Not Otherwise Classified (HNOC)

SDS\_US 16/18

Date of previous report version: 06/13/2024

Generation date: 08/28/2024

# US. EPCRA (SARA Title III) Section 304 Extremely Hazardous Substances Reporting Quantities and the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) Hazardous Substances

None present or none present in regulated quantities.

#### US. EPCRA (SARA Title III Section 313 Toxic Chemical Release Inventory (TRI) Reporting

|                    | <u>Reporting</u> | Reporting threshold for |
|--------------------|------------------|-------------------------|
|                    | threshold for    | manufacturing and       |
| Chemical Identity  | other users      | <u>processing</u>       |
| Cyclohexane        | 10000 lbs        | 25000 lbs.              |
| Hexane             | 10000 lbs        | 25000 lbs.              |
| Benzene, ethyl-    | 10000 lbs        | 25000 lbs.              |
| Benzene, dimethyl- | 10000 lbs        | 25000 lbs.              |
| Toluene            | 10000 lbs        | 25000 lbs.              |
| Benzene            | 10000 lbs        | 25000 lbs.              |

#### Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130):

Chemical Identity Reportable quantity

n-Pentane 10000 lbs Butane, 2-methyl- 10000 lbs n-Butane 10000 lbs

#### Clean Water Act Section 311 Hazardous Substances (40 CFR 117.3)

<u>Chemical Identity</u> <u>Reportable quantity</u>

Cyclohexane 1000 lbs.
Benzene, ethyl-1000 lbs.
Benzene, dimethyl-1000 lbs.
Toluene 1000 lbs.
Benzene 10 lbs.

#### **US State Regulations**

#### **US. California Proposition 65**

**WARNING:** This product can expose you to chemicals including, Benzene, ethyl-; which is [are] known to the State of California to cause cancer.

This product can expose you to chemicals including, Hexane; Toluene; which is [are] known to the State of California to cause birth defects or other reproductive harm.

This product can expose you to chemicals including, Benzene; which is [are] known to the State of California to cause cancer and birth defects or other reproductive harm.

For more information go to www.P65Warnings.ca.gov.

## **Inventory Status**

Canada DSL Inventory List: On or in compliance with the inventory

US TSCA Inventory: On or in compliance with the inventory
