

## **VICTOR ALVARADO**

### **Senior Vice President, Operations and Engineering**

Victor Alvarado joined NOVA Chemicals in 2021 as Senior Vice President, Operations and Engineering, responsible for the safe, reliable and competitive operations of the company's manufacturing facilities and its support functions.

With more than 30 years global manufacturing experience, Alvarado will play a pivotal role in the safe and successful completion of the company's significant growth investments in Sarnia, ON, while providing strategic leadership to ensure world-class competitiveness of NOVA's manufacturing assets.

A graduate of the University of Illinois with a degree in Chemical Engineering, Alvarado rose through the ranks at BP and its predecessor company, Amoco, in various engineering, operations and commercial roles, culminating as Vice President of Global Aromatics, before being named as Operations Director, Global Aromatics at INEOS.
